

EMI CONDUCTIVE LAYER

EMI Filter

Model Number: EMI286AP258ohm

Base substrate: 175um PET Film with 25um OCA

Structure: Ag conductive coating-1side

Properties:

Item		Result
PET Film	Thickness	175um
Coating layer	material	Ag
Optical	Total Transmittance	80%±5%
	Haze	≤0.7%
Electrical	Resistance	8.6 Ω/□
OCA	Thickness	25um
Adhesive strength	N/ 25mm	26N (glass)
(The above mentioned is the test value for 175um product, not guaranteed value.)		

Storage and Shelf Life:

- 1/ Product warranted shelf life of 6 months with protective film protected.
- 2/ Stored in its original container under temperature 15 - 30°C and humidity ≤ 70%.
- 3/ Film in rolls must be stored horizontally.
