

SMT ROTARY ENCODER

P/N: ER-10-TR

MECHANICAL SPECIFICATIONS:

Number of positions: 10.

Operation cycles: 25,000 steps min.

Rotate force: 200gf Max.

ENVIRONMENTAL SPECIFICATIONS:

Water & dust protection: IP67

Operating temperature range: -40/+85 °C.

ELECTRICAL SPECIFICATIONS:

Code: Real-coded.

Maximum rating: 100mA, 5VDC.

Contact Resistance : 100m Ohm Max.

Dielectric strength: 250V AC(50Hz or 60Hz) for 1 minute.

Options & information:

"Tape & Reel" package.

4 types of actuators available.

Position options: 4, 10 & 16.

Complement & Gray code are also available.
